

Callaway crabapples are small, bright red, edible fruits, typically measuring around **1 to 1.5 inches in diameter**, described as being about the size of a large acorn or cherry. They have crisp, yellow flesh and are popular for making jellies, sauces, and for fresh eating, persisting on the tree into winter. [↗](#)

Key Characteristics:

- **Size:** 1 to 1.5 inches (or slightly larger, but less than 2 inches).
- **Color:** Bright red.
- **Flesh:** Yellow to orange, crisp, and tart.
- **Uses:** Excellent for jellies, sauces, canning, and sometimes eaten fresh.
- **Tree:** A disease-resistant ornamental variety known for white flowers and persistent fruit.
